Dear Chairman, and Commissioners:

Date 8-4-97 Of Violation

1. How could you, The FCC grant a Construction Permit, You have deceived the public for 64 years. this station is on air at 50 Watts, this makes ineffective, and nullifies, all your rules and regulations.
2. Then i think you after granting a License, transfer the License to Another Country, while the Station WSSK FM 89.7 is at 50 watts and Transmitting, Saratoga Springs New York,

In the Matter of)
)
Proposal for Creation of the Low Power FM) RM-9242
(LPFM) Broadcast Service)

FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

To: FCC / Mass Media Bureau

Hi Joey: I like the group and have a few of their songs in fact. Too bad he had to leave us so early in his career. One thing you may be interested in is a new station in Saratoga Springs, New York. As well all have been told by the FCC they are not currently licensing any stations under a hundred watts but I have found one. There is a construction permit listed in the M Street Radio Directory for: WSSK FM 89.7 50 watts with 430 foot HAAT The owner is Sound of Life Inc. Box 777 Lake Katrine, NY 12449 phone number is 914-336-6199 You might want to call them and find out why this station is being issued a license for a power under 100 watts. It may help you to get your station on the air. Contact the FCC too and find out why they have done this. A legal precedent may be set over this allowing for further development of stations under 100 watts. Regards,

Mr.D'Alessandro
